EXPERIENCE

Seton Hill University (Internship)   **August 2020 - August 2021**
Student Programmer & Backend Developer
- Helped create and modify the official Seton Hill University Web page
- Worked on the home screen & welcome page including the Lost and Found page
- Used JSON, HTML, CSS, Laravel, PHP, DataGrip, PHPStorm & NoSQL

Seton Hill University   **February 2019 - August 2020**
IT Help Desk & IT Technician   Greensburg, PA
- Stationed at the front desk position, helping anyone that came in or anyone that called that had any type technology problems such as downloading, bugs, issues, broken device, etc
- Later stationed with other technicians to fix and solve problems with any technology problems on campus

PROJECTS

Mario Kart NP-Problem   **October, 2021**
- Created 4 different maps, each containing 3-8 shortcuts and 6 mushrooms. Mushrooms allowed the user to use a shortcut, if you did not have a mushroom you were not permitted to use the shortcut.
- Made this project fully using Python - Pycharm

NFT Minting Dapp   **February 2022 - May 2022**
- Created my own NFT Minting Dapp using Remix.Ethereum & Solidity
- Created Main page layout using Javascript, HTML and CSS
- Purpose : To mint an NFT from my collection, and have it on Ethereum's Blockchain

Grapple Racers   **November 2021 - Present**
- Independent project - 3D Game that you race others in a parkour-like fashion
- Multiplayer - Highly Competitive
- Made using Unity 3D, C#, Blender, Photoshop, SQL Database
